

TIME IS THE SOLUTION TO EVERYTHING

Not the material world, not human intelligence
Not mathematics, not science
Not computers, not machines
Not our food or other things

For if we could only have more time
We can do the things we've left behind
We can change our life's course
From bad to better, it's up to our choice

I'm not saying that Jesus is not
The solution to all the problems we've got
All I'm saying is if we had more time
We could repent of our sins,
believe in Him,
serve Him,
and finally join Him in Paradise

Now I know why it is good in Heaven
The best place we can ever go to
Because there you have eternal time
To do what you wish, anything sublime

And now I realize equality is in Heaven
For no matter how slow or fast you work
There is always time to rest
And for others to catch up

And so our goal is to work hard and have time
For Jesus and our neighbors everyday of our lives
And after these to regain our strength
By resting in preparing to work again

Time is the solution to everything
All the problems this world may bring
For in the end if we still have more time
We can be proud of our life, remaining in Jesus Christ.
